

## Join us as a Senior Infrastructure and Network Analyst!

As a Senior Infrastructure and Network Analyst, you will work under the supervision of the Director of Information Technology in the Information Technology department.

### Your Purpose

The Senior Infrastructure and Network Analyst is the owner of the infrastructure, network, and cybersecurity programs at Brentwood College School. This position leads the day-to-day operation for the end-to-end design, implementation, and monitoring and continuous improvement of the school's physical and cloud infrastructure to ensure reliability and security across our 24/7 boarding campus.

### Your Opportunity

This role involves high-level technical leadership and hands-on management, including:

- **Infrastructure & Systems:** Maintaining and improving server environments and virtualization (Hyper-V/Azure Local)
- **Network Operations:** Engineering campus-wide wired and wireless infrastructure using Cisco Meraki solutions
- **Cybersecurity Program:** Establishing a "defense-in-depth" posture, managing incident response, and governing MFA and identity frameworks
- **Data Centre & Endpoints:** Leading hardware refresh initiatives and governing zero-touch deployment workflows via Intune and Jamf Pro

Our Analysts are self-motivated, adaptable, and capable of serving as the final escalation point for the most complex technical challenges.

### Requirements

- Post-secondary education in Computer Science, Network Engineering, or a related field
- A minimum of five (5) years of progressive experience in infrastructure and network administration
- Strong working knowledge of network administration and cybersecurity fundamentals
- Strong analytical skills to resolve issues under pressure and the ability to communicate effectively with non-technical stakeholders

### Benefits & Notes

- **Salary:** \$85,000 to \$105,000 per year
